THE ORIGINAL

Chimfex

The **Chimfex[®] Fire Extinguisher^{*}** is the clear choice for your merchandise line-up. **Why?**

- Chimney fires are dangerous. They can reach temperatures of 2000° F. Sparks emitted from the flue can ignite the roof and set the house on fire.
- Chimney fires cause millions of dollars of property damage in the U.S. every year – in addition to the loss of life.
- With Chimfex[®], homeowners have a safe, fast and effective tool for combating a chimney fire. It's the same top-quality product used by professional firefighters nationwide for over 40 years.
- Every homeowner who has a wood-burning heater or fireplace should keep one or more Chimfex[®] sticks on hand.

Independent test results **prove** the superior performance of the Chimfex[®] Fire Extinguisher^{*}.

Clear and conclusive test results from a leading independent testing organization – OMNI-Test Laboratories, Inc. – show:

- Chimfex[®] extinguishes^{*} chimney fires in an average of just **22 seconds**.
- Chimfex[®] **reduces chimney temperatures** an average of 53% in two minutes.
- Chimfex[®] **reduces chimney oxygen levels** an average of 43% in two minutes.

* This device is not approved or permissible for use as an alternative for fire extinguishers in any building where fire extinguishers are required by law, ordinance or fire marshal regulation.

Chimfex[®] is easy to use.

Remove top lid to expose scratch surface on the cap.

Twist and remove the cap to expose black button.

Hold away from face while activating Chimfex[®] by lightly scratching black button with the cap.

Immediately drop alongside the fire (not directly in the fire).

For fireplaces: Close door or cover the opening with a non-flammable material.

For wood-burning heaters: Close door and all intake vents.
